

CLINICAL DIAGNOSIS REPORT

AI-Assisted Diagnostic Analysis & Decision Support System

Report ID:	c23b9431-a0ce-4216-83ea-3dac26d4deb6	Date & Time:	2026-07-09 15:08:33
Diagnosis Mode:	Symptom Diagnosis	Model Used:	BioBERT
Inference Speed:	117.90 ms	Status:	Completed

Patient Case / Provided Input

I feel joint pain, knee pain, swelling of joints, stiff neck and painful walking.

Primary Diagnostic Analysis

PREDICTED CONDITION	MODEL CONFIDENCE SCORE
Osteoarthritis	49.95%

Differential Diagnosis Breakdown (Probability Index)

Rank	Diagnostic Indication / Disease	Probability Score
1	Osteoarthritis	49.95%
2	Arthritis	38.30%
3	Cervical spondylosis	8.36%
4	Psoriasis	1.22%
5	Varicose veins	0.49%

MEDICAL DISCLAIMER: This document contains analysis generated by an automated Artificial Intelligence (AI) deep learning diagnostic model. It is intended solely for general reference, research, and clinical decision support. This analysis does NOT constitute definitive medical advice, diagnostic conclusions, or a treatment plan. The prediction confidence scores represent pattern correlation levels, not clinical certainty. Any medical decisions, medication prescriptions, or diagnostic procedures must be reviewed and finalized by a licensed healthcare professional or medical doctor.
